## CALL FROM TEAMS

UNIFIED  
COMMUNICATIONS  
AS A SERVICE

Connect your Microsoft Teams platform to the public telephone network, provide your employees with better internal and external communication through calls via Microsoft Teams, provide them with a true Unified Communications service without investment in equipment, at a fixed monthly cost.

# UNIFY COMMUNICATION

Messages, calls, meetings - let it all go from one place. You don't need a phone to make phone calls, use Microsoft Teams to connect all communication channels for the unique Unified Communications solutions.

## BENEFIT FROM YOUR EXISTING OFFICE 365 LICENCES

Use the full potential of your Office 365 licenses and Microsoft Teams platform, connect your on-premises telephony infrastructure to Microsoft Teams for calls to fixed and mobile networks.

## ACHIEVE SIGNIFICANT SAVINGS

Take advantage of all the benefits of the service, through fixed monthly operating expenses, optimize the cost of calls, reduce the need for on-premise infrastructure, administration and maintenance.

## IMPROVE THE REMOTE WORK EXPERIENCE

Offer your employees the same work experience, regardless of their work location (home office or any other place of work).

## FREE YOURSELF FROM CARING ABOUT THE INFRASTRUCTURE

The service provides countless benefits, including security and maintenance. Equipment and safety are our concern, we guarantee high availability and quality of service.

## PAYMENT MODEL AND LICENSING

We offer you a full service, where the price license per user is **5 euros** per month, and within that price a complete **CALL FROM TEAMS** service is included, with assessment, preparation, consulting, implementation and integration, maintenance, security and rental of our equipment.

This service is intended for all companies and organizations, of which primarily to those who use remote work, and work on Microsoft Teams platform. Having Office 365 licenses, the logical step is to expand the benefits that Teams platform provides by enabling calls to PSTN networks.

Additionally, by using CALL FROM TEAMS service you can unburden your resources (human and infrastructure), you have predictable costs and can improve communication and collaboration not only within your own teams, but also externally - towards your customers, clients and business associates!
